New 33KV Sarpeswar Feeder becomes operational

STATESMAN NEWS SERVICE
BHUBANESWAR, 3 APRIL:

TPCODL is taking extensive measures to ensure uninterrupted power supply to consumers. As part of these efforts, a new 33 kV feeder, spanning 5.4 km from Cuttack Brajabiharipur OPTCL Grid to

Nuapatna, has been constructed using modern technology. With this feeder becoming operational, over 30,000 consumers in areas under the Sarpeswar, Khuntuni, Athgarh and Gurudijhatia primary substations will receive improved efficient power supply, said a release

issued by the discom. The feeder's construction faced multiple challenges, particularly across the Mahanadi River. Of the total 5.4 km length, 2.6 km was built along one side of the Madhusudan Bridge under difficult conditions, requiring special arrangements.

TPCSDL's new 33 kV Sarpeswar feeder now fully operational

PBD BUREAU

BHUBANESWAR, APR 3

TPCSDL continues its efforts to ensure an uninterrupted power supply for its consumers. As part of this commitment, a new 33 kV feeder, stretching 5.4 km from the Cuttack Brajabiharipur OPTCL Grid to Nuapatna, has been constructed using state-of-the-art technology. With the feeder now operational, more than 30,000 consumers across the Sarpeswar, Khuntuni, Athgarh, and Gurudijhatia primary substations will benefit from a more efficient and reliable power supply. This development will particularly benefit rural areas and various industrial establishments while addressing longstanding voltage

fluctuation issues.

The construction of the feeder presented significant challenges, especially in crossing the Mahanadi River. Of the total 5.4 km, 2.6 km were built along the side of the Madhusudan Bridge, under difficult conditions that required special arrangements. TPCSDL implemented stringent safety protocols to ensure the well-being of workers and even arranged for a dedicated boat to facilitate the project's progress.

With rising power

demand during the summer months, TPCSDL remains focused on enhancing the region's electricity infrastructure. This new initiative has successfully addressed long-standing power supply issues in the area, guaranteeing a more stable and efficient power distribution network for the local community.

Meanwhile, TPSODL has commissioned a new 33 kV link line between Hatiota Primary Substation (PSS) and Belagaon PSS in the Polasara Block of Ganjam district. Spanning 7.565 km, this strategic development represents a significant step toward enhancing power stability and reliability for over 34,000 consumers in the region.

Synopsis: TPCDL is taking extensive measures to ensure uninterrupted power supply to consumers. As part of these efforts, a new 33 kV feeder, spanning 5.4 km from Cuttack Brajabiharpur OPTCL Grid to Nuapatna, has been constructed using modern technology. With this feeder becoming operational, over 30,000 consumers in areas under the Sarpeswar, Khuntuni, Athgarh and Gurudijhatia primary substations will receive improved efficient power supply. This will benefit rural consumers and numerous industrial establishments while addressing voltage fluctuation issues. The feeder's construction faced multiple challenges, particularly across the Mahanadi River. Of the total 5.4 km length, 2.6 km was built along one side of the Madhusudan Bridge under difficult conditions, requiring special arrangements. TPCDL ensured comprehensive safety measures for workers involved in the construction and arranged for a dedicated boat for the project. With the increasing power demand during summer, TPCDL prioritizes strengthening the electricity infrastructure. This initiative has resolved long-standing power issues in the local region, ensuring a reliable and efficient supply.

टीपीसीओडीएल ने निर्बाध बिजली आपूर्ति के लिए बनाया 33 केवी का नया फोडर

गर्मी में बिजली खपत व मांग बढ़ने के साथ ही लो गोल्टेज की हो जाती है समस्या

जागरण संवाददाता, भुवनेश्वर : गर्मी का भीसम आते ही बिजली खपत एवं मांग बढ़ने के साथ ही लो गोल्टेज की समस्या बढ़ जाती है, ऐसे में उपभोक्ताओं की मांग एवं समस्या के बीच में रखते हुए टीपीसीओडीएल नियंत्रित करने के लिए व्यापक उपाय कर रहा है। इन प्रयोगों के तहत, आधुनिक तकनीक का उपयोग करके किंवित व्रजबिहारीपुर ओपीटीसीएल ग्रिड से नुआपना तक 5.4 किमी तक फैले एक नए 33 केवी फोडर का निर्माण किया गया है।

इस फोडर के चालू हो जाने के साथ ही सर्वेश्वर, खुट्टूना, आठगढ़ और गुरुद्वारिया प्राथमिक सरकारी स्कूलों के अंतर्गत आने वाले क्षेत्रों के 30,000 से अधिक उपभोक्ताओं को बेहतर बिजली आपूर्ति प्राप्त होगी। इससे ग्रामीण उपभोक्ताओं और कई औद्योगिक प्रतिष्ठानों को लाभ होगा,

33 केवी नए फोडर के साथ टीपीसीओडीएल के कर्मचारी ◉ जगता

जबकि गोल्टेज में उत्तर-चढ़ाव की समस्या भी खत्म हो जाएगी। गर्मी 5.4 किमी लंबाई में से, 2.6 किमी में लोगों को राहत भिलेगी।

फोडर के निर्माण को कई पुल के एक तरफ बनाया गया था, जिसके लिए विशेष व्यवस्था की

आवश्यकता थी। टीपीसीओडीएल ने निर्माण में शामिल श्रमिकों के कठिन परिस्थितियों में मध्यसूदन किए और परियोजना के लिए एक चुनौतियों का समना करना पड़ा।

letters@hindustantimes.com

BHUBANESWAR: Once celebrated for its majestic elephants and revered as the land of the Gajapati Maharajas—rulers historically associated with the gentle giants—Odisha has now turned out to be India's elephant graveyard according to data sourced from the ministry of environment, forests and climate change.

Between 2015-16 and 2023-24, Odisha recorded 176 elephant deaths due to train accidents, electrocution, poaching and poisoning, the second highest number of deaths due to unnatural causes after Assam which recorded 200, revealed the information provided by the Union environment ministry under the RTI Act to this correspondent. Seen in the context of unnatural deaths as compared to the

continued on -II

ELEPHANT DEATHS

total wild elephant population in the state, Odisha's elephant death rate hugely eclipsed Assam. The unnatural death rate of wild elephants in Odisha over last 9 years was 8.3 % compared to 3.4 % of Assam; the latter has 5,828 elephants compared to 2,098 elephants of former.

Other states such as Tamil Nadu (103 deaths against 3063 elephants), Karnataka (102 deaths against 6395 elephants) and Kerala (75 deaths against 593 elephants) were far behind in absolute numbers as well as in the death rate.

Electrocution was the leading unnatural cause of elephant mortality in Odisha, fuelled by live wire poaching traps, poorly maintained overhead power lines, and electrified fences.

Of the 176 deaths between 2015-16 and 2023-24, 124 were from electrocution.

The rest of the unnatural deaths were accounted by train hits (26) and poaching (25). As per the information provided by the state power minister KV Singh Deo in the state assembly last week, at least 18 elephants in Odisha died of electrocution in 2024-25 with a 15-year-old tusker electrocuted by a solar fence that was actually and illegally powered by overhead power lines in Angul district on March 31 night.

The state power minister said four distribution companies in Odisha said in a statement that the company has taken steps such as increasing the height of electric poles in elephant-prone areas to ensure reducing the chances of accidental electrocution. "More than 30,000 interposing poles (33kV, 11kV, and LT combined) have been erected to reduce conductor sag and improve ground clearance while more than 880 CCM of bare overhead conductors have been replaced with insulated AB cables in critical zones. Replacement of bare conductors with insulated AB cables.

TPCODL concludes Safety Month, reaffirms commitment to a safer Bharat

BHUBANESWAR, APR 11

TP Central Odisha Distribution Limited (TPCODL), a joint venture between Tata Power and the Government of Odisha, successfully concluded its month-long Safety Month campaign in the first week of April, underscoring its steadfast commitment to workplace and community safety.

Launched on National Safety Day and Lineman Diwas, the campaign was aligned with the National Safety Council's theme – “Safety and Well-being: Crucial for Viksit Bharat.” It featured a range of interactive initiatives, including safety pledges,

competitions, and awareness activities, with enthusiastic participation from employees and their families. Key focus areas included home, road, fire, and electrical safety.

A highlight of the campaign was the Safety Science Fair, where children showcased innovative ideas such as a smart traffic system designed to assist

emergency vehicles. The initiative also introduced VR-based safety training modules to simulate high-risk scenarios, achieving over 2,000 man-days of safety training.

The closing ceremony featured live safety demonstrations, science exhibits, and cultural performances by employees' children – bringing together learning, creativity, and community spirit.

Arvind Singh, CEO, TPCDL, said, “At TPCDL, safety is a shared responsibility. By involving families, we aim to deepen the roots of a safety-first culture – both at work and at home.”

ଟିପ୍ପଣୀୟ ପକ୍ଷର ସୁରକ୍ଷା ମାସ ପାଳିତ

ଭୁବନେଶ୍ୱର, ୧୩୪ (ବ୍ୟୋରୋ): ଟିପ୍ପଣୀୟ ସେକ୍ଷୁଳ ଓଡ଼ିଶା ଟିକ୍ଟିକୁୟେନ ଲିମିଟେଡ୍ (ଟିପ୍ପଣୀୟ ଲିମିଟେଡ୍) ଏପ୍ରିଲ ମାସର ପ୍ରଥମ ସପ୍ତାହରେ ସୁରକ୍ଷା ମାସ ଅଭିଯାନ ସମାପ୍ତ କରି କର୍ତ୍ତ୍ୟମୂଳ ଏବଂ ଗୋଟା ସୁରକ୍ଷା ପ୍ରତି ନିଜର ପ୍ରତିବନ୍ଦତା ଦୋହରାଇଛି।

ଗୋଟା ସୁରକ୍ଷା ଦିବସ ଏବଂ ଲାଗୁନମ୍ୟାନ୍ ଦିବସରେ ଆଗ୍ରହ ହୋଇଥିବା ଏହି ଅଭିଯାନ ଗୋଟା ସୁରକ୍ଷା ପରିଷଦର ବିଷୟରେ ‘ସୁରକ୍ଷା ଏବଂ ଶାସ୍ତ୍ରୀୟ: ବିଜ୍ଞାତ ଭାବରେ ପାଇଁ ବ୍ୟାହରଣ୍ଟି’ ସହ ସମାଜରାଜ ଭାବେ ଚାଲିଥିଲା । ଏହି କର୍ତ୍ତ୍ୟକୁମାରେ କର୍ମଚାରୀ ଏବଂ ସେମାନଙ୍କ ପରିବାର ସହିତ ଆଶ୍ରମ୍ଭଣରେ ସୁରକ୍ଷା ପ୍ରତିବନ୍ଦତା, ପାରସ୍ୟରକ କର୍ତ୍ତ୍ୟକଳାପ ଏବଂ ପ୍ରତିବେଶିତ ଆଗ୍ରହିତ ହୋଇଥିଲା । ଗର, ସଢ଼କ, ଅନ୍ତିମ ଏବଂ ବିଦ୍ୟୁତ ସୁରକ୍ଷାକୁ ଏହି କର୍ତ୍ତ୍ୟକୁମାରେ ଅଗ୍ରପରିକର ଦିଆଯାଇଥିଲା ।

ଅଭିଯାନର ଏକ ମୁଖ୍ୟ ଆକର୍ଷଣ ଥିଲା ସୁରକ୍ଷା ବିଜ୍ଞାନ ମେଳା ଯେଉଁଠି ପିଲାମାନେ ଜଗାକାନାନ ଯାନବାହନର ସହାୟତା ପାଇଁ ଏକ ସ୍କ୍ରାନ୍ ପ୍ରାର୍ଥିକ ସିଷ୍ଟମ ଭଲି ଅଭିନବ ଚିତ୍ରଧାରା ପ୍ରଦର୍ଶନ କରିଥିଲେ । ଟିପ୍ପଣୀୟ ପ୍ରତିବନ୍ଦର ସିଲା ଅଭିନିଧ ସିଂହ କହିଛନ୍ତି ଯେ, ‘ଟିପ୍ପଣୀୟ ଲିମିଟେଡ୍ରେ ସୁରକ୍ଷା ଏକ ସାମ୍ପୁର୍ଣ୍ଣ ଦ୍ୱାରା ପରିବାରକୁ ଏଥରେ ସହିଲ କରି ଉଭୟ କର୍ତ୍ତ୍ୟମୂଳ ଏବଂ ଯାରେ ଆମେ ସୁରକ୍ଷାକୁ ପ୍ରାଥମିକତା ଦେବାର ଏକ ସମ୍ମତି ତାଆରି କରିବାକୁ ପ୍ରସାଦ କରୁଛୁ ।

Synopsis: TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and Government of Odisha, concluded its month-long Safety Month Campaign on first week of April, reinforcing its commitment to workplace and community safety.

Launched on National Safety Day and Lineman Diwas, the campaign was aligned with the National Safety Council's theme – “Safety and Well-being: Crucial for Viksit Bharat”. It featured safety pledges, interactive activities and competitions with active participation from employees and their families. Focus areas included home, road, fire and electrical safety.

A key attraction was the Safety Science Fair, where children presented innovative ideas, including a smart traffic system to aid emergency vehicles. The campaign introduced VR-based safety training modules for high-risk scenarios, completing over 2,000 man-days of safety training.

The closing ceremony included safety demonstrations, science exhibits and cultural performances by employees' children.

Arvind Singh, CEO, TPCODL said, “At TPCODL, safety is a shared responsibility. By involving families, we endeavour to strengthen the foundation of a safety-first culture—both at work and at home.”

Power Infrastructure Boost in Bahugram, Salipur 33KV Feeder Successfully Charged

Bhubaneswar, (correspondent): Reaffirming its commitment to delivering reliable and uninterrupted power supply, TP Central Odisha Distribution Limited (TPCODL) has successfully charged the 33KV (Ckt-II) feeder at the newly developed 132/33KV Bahugram (Atoda) Grid, Salipur. With three bays of the grid now operational, the move is set to benefit over 10,000 consumers under the Bahugram Primary Substation (PSS), ensuring enhanced power reli-

ability and better load management. This infrastructure upgrade marks a significant milestone in TPCODL's ongoing efforts to strengthen the power distribution network across its licensed area. The successful commissioning of the feeder will help address the rising electricity demand and ensure consistent supply to residential, commercial and agricultural consumers in the region. TPCODL remains committed to develop the power infrastructure and implementing smart and sustainable solutions to improve customer satisfaction and drive regional development.

Power infrastructure boost in Bahugram, 33KV feeder commissioned at Salipur

PBD BUREAU

BHUBANESWAR, APR 22

IN a major step towards enhancing power reliability in the region, TP Central Odisha Distribution Limited (TPCODL) has successfully charged the 33KV (Ckt-II) feeder at the newly developed 132/33KV Bahugram (Atoda) Grid in Salipur. With three bays of the grid now operational, the development is set to benefit over 10,000 consumers served by the Bahugram Primary Substation (PSS), ensuring improved load management and a more stable

power supply.

This infrastructure upgrade marks a key milestone in TPCODL's continued efforts to modernize and strengthen the power distribution network across its licensed areas. The commissioning of the new feeder is expected to meet the growing electricity demand in the region and provide consistent,

uninterrupted power to residential, commercial, and agricultural users.

Reiterating its commitment to delivering smart and sustainable energy solutions, TPCODL remains focused on infrastructure development and customer-centric innovations that drive regional progress and enhance service reliability.
