### TPCODL awarded 4-star rating for excellence in energy conservation

**PBD BUREAU**

**BHUBANESWAR, JAN 4**

TP Central Odisha Distribution Limited (TPCODL), a joint venture between Tata Power and the Government of Odisha, has been awarded a prestigious 4-Star rating at the Energy Conservation Award (ENCON) 2024. The award ceremony was hosted by the Confederation of Indian Industry (CII), Eastern Region, in Kolkata and celebrated organizations that have made outstanding contributions to energy conservation and sustainability.

The ENCON Awards aim to recognize and promote innovative energy efficiency practices and

environmentally positive initiatives across industries. The rigorous evaluation process involved multiple stages, including detailed application submissions, desktop assessments, and final presentations before a distinguished jury comprising experts from industry and academia. The awards were presented at the CII Energy Conclave 2024, where 62 teams from the manufacturing and services sectors vied for top honours.

TPCODL's achievement is particularly notable, as it

competed against prominent organisations, including ITC Limited, Aditya Birla Group, CESC Limited, IFFCO, Exide Industries, Jindal Steels, Tata Power Jojobera, NALCO, Tata BlueScope Steel, RAMCO Cements, Tata Steel, and others. During the final presentation rounds, TPCODL showcased its innovative approaches to energy-saving and decarbonisation.

This recognition underscores TPCODL's unwavering commitment to fostering a greener and more energy-efficient future. The company's efforts align with global sustainability goals, further solidifying its reputation as a leader in energy conservation and sustainability in the region.

## ଶକ୍ତି ସଂରକ୍ଷଣ ପାଇଁ ଟିପିସିଓଡିଏଲ୍ ସମ୍ବର୍ଦ୍ଧିତ

ଭୁବନେଶ୍ୱର, ୫।୧ (ବୁଧବାର): ଟିପିସିଓଡିଏଲ୍ କୁ କୋଲକାତାରେ ଆୟୋଜିତ ସିଆଇଆଇ ଏନର୍ଜି କନ୍ଫେରେନ୍ସ-୨୦୨୪ (ଏନକନ୍-୨୦୨୪)ରେ ସମ୍ମାନଜନକ ୪-ତାରକା ମାନ୍ୟତା ପ୍ରଦାନ କରାଯାଇଛି । ଏହା ପୂର୍ବ ଭାରତର ସଂସ୍ଥାନଗୁଡ଼ିକୁ ସ୍ୱୀକୃତି ପ୍ରଦାନ କରେ, ଯେଉଁମାନେ ଶକ୍ତି ସଂରକ୍ଷଣ ପାଇଁ ଅତ୍ୟୁତ୍ତମ ପ୍ରତିବଦ୍ଧତା ପ୍ରଦର୍ଶନ କରନ୍ତି । ଏନକନ୍ ଫୋରମ୍‌ଗୁଡ଼ିକ ଶିଳ୍ପଗୁଡ଼ିକରେ ଶକ୍ତି ଦକ୍ଷତା ପଦକ୍ଷେପ ଏବଂ ପ୍ରକୃତି ପ୍ରତି ସକାରାତ୍ମକ ଅଭ୍ୟାସ ଆପଣାଉଥିବା ସଂସ୍ଥାକୁ ସମ୍ମାନିତ କରନ୍ତି ।

Synopsis - TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and Government of Odisha, has been awarded a prestigious 4-Star rating at the Energy Conservation Award (ENCON) 2024, hosted by the Confederation of Indian Industry (CII), Eastern Region. The award recognizes organizations in the region that have demonstrated exceptional commitment to energy conservation and sustainability.

The ENCON forums aim to honour energy efficiency initiatives and nature-positive practices across industries. The evaluation process involved multiple stages, including the submission of detailed applications, a desktop assessment and a final round of presentations to a distinguished jury from both industry and academia. The final assessment culminated in the award ceremony held at the CII Energy Conclave 2024 in Kolkata, where 62 teams from the manufacturing and services sectors competed.

TPCODL competed with leading organizations such as ITC Limited, Aditya Birla Group, CESC Limited, IFFCO, Exide Industries, Jindal Steels, Tata Power Jojobera, NALCO, Tata BlueScope Steel, RAMCO Cements, Tata Steel and others. Their efforts in energy-saving and decarbonization were showcased during the final presentation rounds.

**Synopsis -** TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and Government of Odisha, has been awarded a prestigious 4-Star rating at the Energy Conservation Award (ENCON) 2024, hosted by the Confederation of Indian Industry (CII), Eastern Region. The award recognizes organizations in the region that have demonstrated exceptional commitment to energy conservation and sustainability.

The ENCON forums aim to honour energy efficiency initiatives and nature-positive practices across industries. The evaluation process involved multiple stages, including the submission of detailed applications, a desktop assessment and a final round of presentations to a distinguished jury from both industry and academia. The final assessment culminated in the award ceremony held at the CII Energy Conclave 2024 in Kolkata, where 62 teams from the manufacturing and services sectors competed.

TPCODL competed with leading organizations such as ITC Limited, Aditya Birla Group, CESC Limited, IFFCO, Exide Industries, Jindal Steels, Tata Power Jojobera, NALCO, Tata BlueScope Steel, RAMCO Cements, Tata Steel and others. Their efforts in energy-saving and decarbonization were showcased during the final presentation rounds.

### Odisha deputy CM Singh Deo inaugurates power distribution technology centre in Bhubaneswar

Bhubaneswar, Jan 18 (PTI) Odisha deputy chief minister KV Singh Deo on Saturday inaugurated a state-of-the-art power distribution technology centre, marking a transformative leap in distribution network management and operational excellence.

The centre has been set up by TPCODL, a joint venture of Tata Power and the Odisha government. "Inaugurated the power distribution technology centre at TPCODL, a pioneering step towards strengthening Odisha's power infrastructure," Singh Deo said.

Singh Deo, who also oversees the energy department, said the centre will be crucial in making Odisha a hub of distribution excellence.

"With advanced infrastructure and technologies, it ensures resilient and reliable power for the state. It reflects our vision for a future-ready energy ecosystem that supports both consumers and industries. I commend Tata Power for its unwavering commitment to strengthening power distribution in Odisha," he added.

The hub integrates advanced operational technology (OT) and information technology (IT) systems, alongside a 24x7 power system control centre (PSCC) that ensures real-time network monitoring, seamless system operations, and uninterrupted power supply across Odisha, according to the company.

The event was also participated by Chief Secretary Manoj Ahuja, Praveer Sinha, CEO and MD, Tata Power, Sanjay Banga, president T&D; Tata Power, CEOs of Tata Power led Odisha discoms- TPCODL, TPSODL, TPWODL and TPNODL and other senior officials from the state government and Tata Power.

## Dy CM launches power tech centre of TPCODL

EXPRESS NEWS SERVICE  
@ Bhubaneswar

DEPUTY chief minister KV Singh Deo on Saturday inaugurated a state-of-the-art power distribution technology centre of TPCODL here.

This cutting-edge technology hub integrates advanced operational technology (OT) and information technology (IT) systems, along with a 24x7 power system control centre (PSCC) that ensures real-time network monitor-

ing, seamless system operations, and uninterrupted power supply across the state.

Equipped with advanced distribution management systems (ADMS), the centre will ensure enhanced network reliability and precise operational control. Real-time weather monitoring and satellite communication integrated in the system will bolster connectivity and operational continuity.

Singh Deo, who is also the Energy minister, said the technology centre will help improve the resil-

ience of the power distribution network while ensuring seamless operations across Odisha. "The centre is a key step in making Odisha a hub of distribution excellence. With advanced infrastructure and technologies, it ensures resilient and reliable power. The

centre reflects our vision for a future-ready energy ecosystem that supports both consumers and industries," he said.

The PSCC manages the 33 KV network, encompassing 224 supervisory control and data acquisition (SCADA)-integrated primary substations and their associated 11 KV infrastructure. The data centre houses over 100 racks and 400 servers. It also bolsters disaster recovery mechanisms for all four Tata Power-led Odisha discoms.

## Dy CM opens power distribution tech centre

PRESS TRUST OF INDIA

**Bhubaneswar, Jan 18:** Deputy Chief Minister Kanak Vardhan Singh Deo Saturday inaugurated a state-of-the-art power

distribution technology centre, marking a transformative leap in distribution network management and operational excellence.

The centre has been set up by

TPCODL, a joint venture of Tata Power and the Odisha government. "Inaugurated the power distribution technology centre at TPCODL – a pioneering step towards strengthening Odisha's

power infrastructure," Singh Deo said.

Singh Deo, who is also the Energy Minister, said the centre will be crucial in making Odisha a hub of distribution excellence.

"With advanced infrastructure and technology, it ensures resilient and reliable power for the state. It reflects our vision for a future-ready energy ecosystem that supports both consumers and industries. I commend Tata Power for its unwavering commitment to strengthening power distribution in Odisha," he added.

The hub integrates advanced operational technology and information technology systems, alongside a 24x7 power system control centre that ensures real-time network monitoring, seamless system operations, and uninterrupted power supply across Odisha, according to the company.

Chief Secretary Manoj Ahuja and Praveer Sinha, CEO and MD, Tata Power also attended the event.

Tata Power launches state-of-the-art Power Distribution Technology Centre in Odisha

Bhubaneswar,DMC): TPCODL, a joint venture of Tata Power and the Government of Odisha, has unveiled a state-of-the-art Power Distribution Technology Centre in Bhubaneswar today, marking a transformative leap in distribution network management and operational excellence. The centre was inaugurated by Shri K. V. Singh Deo, Hon'ble Deputy Chief Minister, Government of Odisha, in the esteemed presence of the Shri Manoj Ahuja, Chief Secretary, Government of Odisha; Dr Praveer Sinha, CEO&MD, Tata Power; Mr. Sanjay Banga, President T&D; Tata Power, CEOs of Tata Power led Odisha discoms- TPCODL, TPSODL, TPWODL and TPNODL, and other senior officials from the Government and Tata Power.

This cutting-edge technology hub integrates advanced Operational Technology (OT) and Information Technology (IT) systems, along with a 24x7 Power System Control Centre

(PSCC) that ensures real-time network monitoring, seamless system operations, and uninterrupted power supply across Odisha. It will help to improve the resilience of the power distribution network while ensuring seamless operations across the state. "The Power Distribution Technology Centre is a key step in making Odisha a hub of distribution excellence. With advanced infrastructure and technologies, it ensures resilient and reliable power for the state. It reflects our vision for a future-ready energy

ecosystem that supports both consumers and industries. I commend Tata Power for its unwavering commitment to strengthening power distribution in Odisha," said Shri K. V. Singh Deo, Hon'ble Deputy Chief Minister and Energy Minister of Odisha at the inauguration. It is also equipped with Advanced Distribution Management Systems (ADMS), to ensure enhanced network reliability and precise operational control. Geographical Information System (GIS) technology streamlines asset

management and consumer indexing, while the Utility Data Stream (UDS) automates energy audits through seamless integration of GIS, billing, and meter management. Real-time weather monitoring and satellite communication further bolster connectivity and operational continuity. The PSCC manages the 33 kV network, encompassing 224 SCADA-integrated primary substations and their associated 11 kV infrastructure, reinforcing network reliability and efficiency. At the heart of the facility lies a robust Data Centre, housing over 100 racks and 400+ servers. This infrastructure supports critical consumer-facing applications like websites, mobile apps, call centres, and billing systems. In addition to its technological capabilities, the centre bolsters disaster recovery mechanisms for all four Tata Power led Odisha DISCOMs.

**Synopsis -** TPCODL, a joint venture of Tata Power and the Government of Odisha, has unveiled a state-of-the-art Power Distribution Technology Centre in Bhubaneswar today, marking a transformative leap in distribution network management and operational excellence.

The centre was inaugurated by Shri K. V. Singh Deo, Hon'ble Deputy Chief Minister, Government of Odisha, in the esteemed presence of the Shri Manoj Ahuja, Chief Secretary, Government of Odisha; Dr Praveer Sinha, CEO&MD, Tata Power; Mr. Sanjay Banga, President T&D; Tata Power, CEOs of Tata Power led Odisha discoms- TPCODL, TPSODL, TPWODL and TPNODL and other senior officials from the Government and Tata Power.

This cutting-edge technology hub integrates advanced Operational Technology (OT) and Information Technology (IT) systems, along with a 24x7 Power System Control Centre (PSCC) that ensures real-time network monitoring, seamless system operations, and uninterrupted power supply across Odisha. It will help to improve the resilience of the power distribution network while ensuring seamless operations across the state.

"The Power Distribution Technology Centre is a key step in making Odisha a hub of distribution excellence. With advanced infrastructure and technologies, it ensures resilient and reliable power for the state. It reflects our vision for a future-ready energy ecosystem that supports both consumers and industries. I commend Tata Power for its unwavering commitment to strengthening power distribution in Odisha." said Shri K. V. Singh Deo, Hon'ble Deputy Chief Minister and Energy Minister of Odisha at the inauguration.

To ensure better customer service, operational efficiency

**PNS ■ BHUBANESWAR**

The TPCODL, a joint venture of Tata Power and the Government of Odisha, unveiled a state-of-the-art Power Distribution Technology Centre in Bhubaneswar on Monday, marking a transformative leap in distribution network management and operational excellence.

The centre was inaugurated by Deputy Chief Minister, KV Singh Deo in the esteemed

presence of Chief Secretary Manoj Ahuja, CEO and MD, Tata Power Dr Praveer Sinha, President T and D Sanjay Banga, CEOs of Tata Power led Odisha discoms-TPCODL, TPSODL, TPWODL and TPNODL and other senior officials from the Government and Tata Power.

The cutting-edge technology hub integrates advanced

Operational Technology (OT) and Information Technology (IT) systems, along with a 24x7 Power System Control Centre (PSCC) that ensures real-time network monitoring, seamless system operations, and uninterrupted power supply across Odisha. It will help to improve the resilience of the power distribution network while ensuring seamless

operations across the State.

It is also equipped with Advanced Distribution Management Systems (ADMS) to ensure enhanced network reliability and precise operational control. Geographical Information System (GIS) technology streamlines asset management and consumer indexing, while the Utility Data Stream (UDS) automates energy audits through seamless integration of GIS, billing, and meter management. Real-time weather monitoring and satellite communication further bolster connectivity and operational continuity.

The PSCC manages the 33 kV network, encompassing 224 SCADA-integrated primary substations and their associated 11 kV infrastructure, reinforcing network reliability and efficiency. At the heart of the facility lies a robust Data Centre, housing over 100 racks and 400+ servers. This infrastructure supports critical consumer-facing applications like websites, mobile apps, call centres, and billing systems.

In addition to its technological capabilities, the centre bolsters disaster recovery mechanisms for all four Tata Power-led Odisha DISCOMs.

Synopsis - The PM Surya Ghar Yojana is a flagship scheme of the Government of India to promote rooftop solar installations, making renewable energy both accessible and affordable. This transformative initiative simplifies the adoption of solar energy on household rooftops. By facilitating rapid installations across the state and the nation, the scheme aims to revolutionize the renewable energy landscape.

One of the standout features of the scheme is the provision of subsidies. Consumers can avail a Central Government subsidy of up to ₹78,000 for installations of up to 3 kW. Complementing this, the Odisha State Government offers an additional subsidy of up to ₹60,000, making solar energy adoption even more attractive. To further ease the financial burden, affordable loans of up to ₹2 lakh are available from public sector banks at an interest rate as low as 7%. Early adopters of the scheme have already reported substantial reductions in their monthly electricity bills reinforcing the economic and environmental benefits of this initiative.

The state has set an ambitious target of installing 3 lakh rooftop solar panels by 2027, a move that will significantly contribute to the green energy transition. This initiative aligns with India’s national goal of achieving 500 GW of renewable energy capacity by 2030. Beyond environmental benefits, the scheme is poised to create extensive employment opportunities and further bolster the country’s sustainability efforts by reducing its global carbon footprint.

**Synopsis** - The PM Surya Ghar Yojana is a flagship scheme of the Government of India to promote rooftop solar installations, making renewable energy both accessible and affordable. This transformative initiative simplifies the adoption of solar energy on household rooftops. By facilitating rapid installations across the state and the nation, the scheme aims to revolutionize the renewable energy landscape.

One of the standout features of the scheme is the provision of subsidies. Consumers can avail a Central Government subsidy of up to ₹78,000 for installations of up to 3 kW. Complementing this, the Odisha State Government offers an additional subsidy of up to ₹60,000, making solar energy adoption even more attractive. To further ease the financial burden, affordable loans of up to ₹2 lakh are available from public sector banks at an interest rate as low as 7%. Early adopters of the scheme have already reported substantial reductions in their monthly electricity bills reinforcing the economic and environmental benefits of this initiative.

The state has set an ambitious target of installing 3 lakh rooftop solar panels by 2027, a move that will significantly contribute to the green energy transition. This initiative aligns with India's national goal of achieving 500 GW of renewable energy capacity by 2030. Beyond environmental benefits, the scheme is poised to create extensive employment opportunities and further bolster the country's sustainability efforts by reducing its global carbon footprint.

## Vendors' Meet in Bhubaneswar boosts PM Surya Ghar Yojana implementation

**BHUBANESWAR:** A key Vendors' Meet, organized by REC Limited, RO Bhubaneswar on Wednesday, marked a significant step in advancing the PM Surya Ghar Yojana's goals. The event saw strong participation from solar vendors, SLBC representatives, and banking partners. Arvind Singh, CEO of TPCODL, and Saidutta Biplab Keshari Pradhan, CEO of OREDA, were present to discuss solutions to the scheme's implementation challenges. The PM Surya Ghar Yojana, aimed at promoting rooftop solar installations, offers substantial subsidies — up to Rs 78,000 from the central government and an additional Rs 60,000 from the Odisha state government. Additionally, affordable loans up to Rs 2 lakh are available with an interest rate of 7 per cent. With a target of installing 3 lakh rooftop solar panels by 2027, Odisha is set to play a vital role in India's green energy transition.

## PM Surya Ghar Yojana Paves the Way for a Greener Tomorrow

Bhubaneswar, (TNB): The PM Surya Ghar Yojana is a flagship scheme of the Government of India to promote rooftop solar installations, making renewable energy both accessible and affordable. This transformative initiative simplifies the adoption of solar energy on household rooftops. By facilitating rapid installations across the state and the nation, the scheme aims to revolutionize the renewable energy landscape. One of the standout features of the scheme is the provision of subsidies. Consumers can avail a Central Government subsidy of up to ₹78,000 for installations of up to 3 kW. Complementing this, the Odisha State Government offers an additional subsidy of up to ₹60,000, making solar energy adoption even more attractive. To further ease

the financial burden, affordable loans of up to ₹2 lakh are available from public sector banks at an interest rate as low as 7%. Early adopters of the scheme have already reported substantial reductions in their monthly electricity bills reinforcing the economic and environmental benefits of this initiative.

The state has set an ambitious target of installing 3 lakh rooftop solar panels by 2027, a move that will significantly contribute to the green energy

transition. This initiative aligns with India's national goal of achieving 500 GW of renewable energy capacity by 2030. Beyond environmental benefits, the scheme is poised to create extensive employment opportunities and further bolster the country's sustainability efforts by reducing its global carbon footprint.

In a significant step towards ensuring the scheme's effective implementation, a Vendor's Meet was organized by REC Limited, RO

Bhubaneswar on 22nd January 2025. The event witnessed enthusiastic participation from solar vendors and representatives of SLBC and banking partners. It was graced by the presence of Mr. Arvind Singh, CEO of TPCODL and Mr. Biplab Saidutta Keshari Pradhan, CEO of OREDA, alongside CPM, REC, Bhubaneswar. The meet served as a platform for key stakeholders to engage in constructive discussions addressing bottlenecks in the scheme's implementation and exploring potential solutions. With such collaborative efforts and a clear focus on innovation, the PM Surya Ghar Yojana is set to transform India's energy sector enabling a sustainable future for generations to come.

**Synopsis -** The PM Surya Ghar Yojana is a flagship scheme of the Government of India to promote rooftop solar installations, making renewable energy both accessible and affordable. This transformative initiative simplifies the adoption of solar energy on household rooftops. By facilitating rapid installations across the state and the nation, the scheme aims to revolutionize the renewable energy landscape.

One of the standout features of the scheme is the provision of subsidies. Consumers can avail a Central Government subsidy of up to ₹78,000 for installations of up to 3 kW. Complementing this, the Odisha State Government offers an additional subsidy of up to ₹60,000, making solar energy adoption even more attractive. To further ease the financial burden, affordable loans of up to ₹2 lakh are available from public sector banks at an interest rate as low as 7%. Early adopters of the scheme have already reported substantial reductions in their monthly electricity bills reinforcing the economic and environmental benefits of this initiative.

The state has set an ambitious target of installing 3 lakh rooftop solar panels by 2027, a move that will significantly contribute to the green energy transition. This initiative aligns with India's national goal of achieving 500 GW of renewable energy capacity by 2030. Beyond environmental benefits, the scheme is poised to create extensive employment opportunities and further bolster the country's sustainability efforts by reducing its global carbon footprint.

### Hon'ble Deputy CM KV Singh Deo Witnesses Cutting-Edge Energy Innovations at Utkarsh Odisha - Make in Odisha Conclave

Bhubaneswar, (Correspondent) Honourable Deputy CM Shri KV Singh Deo visited the Energy Pavilion at Utkarsh Odisha - Make in Odisha Conclave, where he experienced Odisha's remarkable strides in smart energy solutions, renewable power, and digital innovations. The pavilion highlights ground-breaking advancements such as Advance grid management, real-time energy monitoring and smart meters, reflecting the state's vision for a

future-ready power sector. Praising the event, he remarked, "I am pleased to witness the vibrant stalls at Utkarsh Odisha - Make in Odisha Conclave. The event is a true testament

to Odisha's innovation, entrepreneurial spirit, and boundless potential. Proud to see our state shaping the future of business and industry." The Energy Pavilion serves as a key platform

to showcase Odisha's commitment to sustainable and technology-driven energy solutions. From automation in power distribution to advancements in green hydrogen and solar energy integration, the pavilion demonstrates how Odisha is leveraging cutting-edge technologies to build a robust and resilient energy ecosystem. This initiative not only supports the state's economic growth but also reinforces its position as a leader in clean and smart energy solutions.

## उपमुख्यमंत्री केवी सिंह ने देव अत्याधुनिक ऊर्जा नवाचारों का किया अवलोकन

भुवनेश्वर, ( निप्र ) : उपमुख्यमंत्री केवी सिंह देव ने 'उत्कर्ष ओडिशा-मेक इन ओडिशा कॉन्क्लेव' में ऊर्जा मंडप का दौरा किया, जहां उन्होंने स्मार्ट ऊर्जा समाधान, नवीकरणीय ऊर्जा और डिजिटल नवाचारों में ओडिशा की उल्लेखनीय प्रगति का अनुभव किया। मंडप में एडवांस ग्रिड प्रबंधन, रीयल-टाइम ऊर्जा निगरानी और स्मार्ट मीटर जैसी अभूतपूर्व प्रगति को दर्शाया गया है, जो भविष्य के लिए तैयार बिजली क्षेत्र के लिए राज्य के दृष्टिकोण को दर्शाता है। आयोजन की प्रशंसा करते हुए उन्होंने कहा, मैं उत्कर्ष ओडिशा-मेक इन ओडिशा कॉन्क्लेव में जीवंत स्टॉल देखकर प्रसन्न हूँ। यह आयोजन

ओडिशा के नवाचार, उद्यमशीलता की भावना और असीम क्षमता का सच्चा प्रमाण है। हमारे राज्य को व्यवसाय और उद्योग के भविष्य को आकार देते हुए देखकर गर्व महसूस हो रहा

है। ऊर्जा मंडप ओडिशा की संधारणीय और प्रौद्योगिकी-संचालित ऊर्जा समाधानों के प्रति प्रतिबद्धता को प्रदर्शित करने के लिए एक प्रमुख मंच के रूप में कार्य करता है। बिजली वितरण में स्वचालन से लेकर हरित हाइड्रोजन और सौर ऊर्जा एकीकरण में प्रगति तक, मंडप दर्शाता है कि ओडिशा किस तरह एक मजबूत और लचीला ऊर्जा पारिस्थितिकी तंत्र बनाने के लिए अत्याधुनिक तकनीकों का लाभ उठा रहा है। यह पहल न केवल राज्य के आर्थिक विकास का समर्थन करती है, बल्कि स्वच्छ और स्मार्ट ऊर्जा समाधानों में अग्रणी के रूप में इसकी स्थिति को भी मजबूत करती है।

## ଏନର୍ଜି ପାଭିଲିୟନ ବୁଲିଲେ ଶକ୍ତିମନ୍ତ୍ରୀ

ଉପମୁଖ୍ୟମନ୍ତ୍ରୀ କେ.ଭି. ସିଂ ଦେଓ ଉତ୍କର୍ଷ ଓଡ଼ିଶା - ମେକ୍ ଇନ୍ ଓଡ଼ିଶା କନଫରେନ୍ସରେ ଏନର୍ଜି ପାଭିଲିୟନ ପରିଦର୍ଶନ କରିଛନ୍ତି । ଏଠାରେ ସେ ଉନ୍ନତ ଶକ୍ତି ସମାଧାନ, ନବୀକରଣଯୋଗ୍ୟ ଶକ୍ତି ଏବଂ ଡିଜିଟାଲ ନବୀକରଣ କ୍ଷେତ୍ରରେ ଓଡ଼ିଶାର ଉଲ୍ଲେଖନୀୟ ଅଗ୍ରଗତିକୁ ବୁଲି ଦେଖିଥିଲେ । ଏହି ପାଭିଲିୟନରେ ଆବିଷ୍କାର ଗ୍ରାହ ପରିଚାଳନା, ରିଅଲ୍-ଟାଇମ୍ ଏନର୍ଜି ମନିଟରିଂ ଏବଂ ସ୍ମାର୍ଟ ମିଟର ଭଳି ଉଲ୍ଲେଖନୀୟ ପଦକ୍ଷେପକୁ ପ୍ରଦର୍ଶିତ କରାଯାଇଛି । ଏହି ଅବସରରେ ଶ୍ରୀ ସିଂହଦେଓ କହିଛନ୍ତି, ଉତ୍କର୍ଷ ଓଡ଼ିଶା କନଫରେନ୍ସରେ ଏହି ଭବ୍ୟ ସ୍ଥଳୀକୁ ଦେଖି ଖୁସି । ଏହି କାର୍ଯ୍ୟକ୍ରମ ଓଡ଼ିଶାର ନବୀକରଣ, ଉଦ୍ୟୋଗୀ ମନୋଭାବ ଏବଂ ଅସାମାନ୍ୟ ସମ୍ଭାବନାର ଏକ ପ୍ରକୃତ ପ୍ରମାଣ । ଆମ ରାଜ୍ୟ ବ୍ୟବସାୟ ଏବଂ ଶିଳ୍ପର ଭବିଷ୍ୟତକୁ ଗଢୁଥିବା ଦେଖି ମୁଁ ଗର୍ବିତ ।

**Synopsis -** Honourable Deputy CM Shri KV Singh Deo visited the Energy Pavilion at Utkarsh Odisha - Make in Odisha Conclave, where he experienced Odisha's remarkable strides in smart energy solutions, renewable power, and digital innovations. The pavilion highlights ground-breaking advancements such as Advance grid management, real-time energy monitoring and smart meters, reflecting the state's vision for a future-ready power sector.

Praising the event, he remarked, "I am pleased to witness the vibrant stalls at Utkarsh Odisha – Make in Odisha Conclave. The event is a true testament to Odisha's innovation, entrepreneurial spirit, and boundless potential. Proud to see our state shaping the future of business and industry."

The Energy Pavilion serves as a key platform to showcase Odisha's commitment to sustainable and technology-driven energy solutions. From automation in power distribution to advancements in green hydrogen and solar energy integration, the pavilion demonstrates how Odisha is leveraging cutting-edge technologies to build a robust and resilient energy ecosystem. This initiative not only supports the state's economic growth but also reinforces its position as a leader in clean and smart energy solutions.
