TPCODL Lineman Brings Pride to the State

Bhubaneswar (correspondent): TPCODL lineman Shri Ladu Kishore Pradhan has been honored by the Central Electricity Authority (CEA) at the Lineman Diwas 2025 event held in New Delhi for his remarkable contributions to innovation, service and reliability. At this national-level event, four top-per-

forming DISCOMs and five best linemen were felicitated. Among the top five linemen, Shri Ladu Kishore Pradhan was the only lineman from Odisha to receive this prestigious recognition. He is currently serving as Lineman-C in the Tangi Section under Balugaon Division, Bhubaneswar-2 Circle

and has 20 years of experience in the field. Prioritizing safety, he has developed a discharge rod, which enables electrical work to be performed with minimal time and effort. More than 160 linemen from over 45 public and private power distribution, generation and transmission companies across India participated in this event. Representatives from Odisha, Andhra Pradesh, Bihar, Chandigarh, Chhattisgarh, Gujarat, Haryana, Jharkhand, Jammu & Kashmir, Karnataka, Kerala, Maharashtra, Madhya Pradesh, Rajasthan, Uttar Pradesh, Uttarakhand and West Bengal were also present at the program

TPCODL prepares for summer 2025 with upgraded infrastructure and safety measures

PBD BUREAU

BHUBANESWAR, MAR 21

TATA Power Central Odisha Distribution Limited (TPCODL) is ready to meet the increased electricity demand anticipated for the summer of 2025, with a peak demand forecast of 2524 MW. To ensure reliable power supply, the company has enhanced its infrastructure and safety protocols.

A Centralised Power Distribution Technology Centre has been set up in Bhubaneswar, equipped with real-time monitoring systems like SCADA and ADMS, ensuring smooth operation of key distribution assets. The Power System Control Centre (PSCC) is fortified with backup power and dedicated communication lines for operational conti-

nuity.

To boost capacity, TPCODL has upgraded power transformers and substations, adding 152 MVA to the sub-transmission network and 181 MVA to the distribution network. It has also expanded its network by adding 55 CKM of sub-transmission lines, 1126 CKM of 11kV lines, and 383 CKM of LT network. Furthermore, 33kV and 11kV feeders have been

augmented to improve voltage stability.

TPCODL has also taken steps to improve customer service, including multi-language outage updates via social media, upgraded call centers, and the implementation of the FCC 2.0 mobile app for faster response. To manage storms, TPCODL has stationed mobile substations, emergency materials, and contingency plans for better load management.

“We are fully prepared to ensure uninterrupted power supply with advanced technology and a skilled workforce,” said Arvind Singh, CEO of TPCODL.

TPCODL remains committed to providing safe, efficient power across its operational areas, he added.

TPCODL strengthens infra to ensure reliable power supply for summer

POST NEWS NETWORK

Bhubaneswar, March 21: TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Government of Odisha, has ramped up its power infrastructure and emergency preparedness to meet the peak summer demand of 2524 MW.

A new Centralised Power Distribution Technology Centre in Bhubaneswar now enables real-time monitoring through SCADA and an Advanced Distribution Management System (ADMS).

The company has upgraded power transformers and substations, adding 152 MVA to the sub-transmission network and 181 MVA to the distribution network, alongside significant network expansion for better voltage stability. To improve customer service, TPCODL has enhanced outage management with multi-language updates, upgraded its call centre operations, and strengthened Fuse Call Centres (FCCs) for quicker

issue resolution. Over 9,000 personnel are deployed to ensure prompt responses.

In preparation for Kalabaisakhi storms, TPCODL has kept 13 mobile substations on standby, stocked emergency materials at 20 divisional stores, and deployed additional manpower and vehicles. “Ensuring reliable power supply during peak summer months is our top priority,” said Arvind Singh, CEO, TPCODL. “With cutting-edge technology and a strengthened workforce, we are fully prepared to meet rising electricity demands while ensuring service reliability.”

TPCODL Gears Up for summer 2025 with Enhanced Infrastructure and Safety Measures

Bhubaneswar, (correspondent):: TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and Government of Odisha, is prepared to meet the rising electricity demand as temperatures soar in the summer of 2025. With an anticipated peak demand of 2524 MW, TPCODL has undertaken a series of proactive measures to ensure uninterrupted power supply and enhanced reliability. To strengthen its power distribution capabilities, TPCODL has established a Centralised Power Dis-

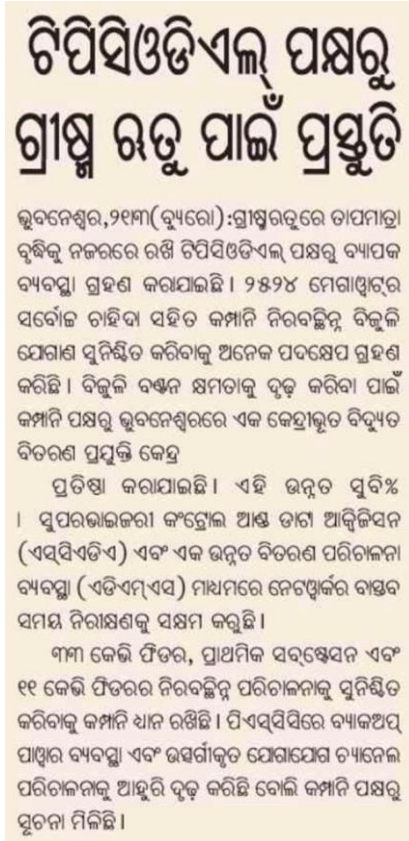

tribution Technology Centre in Bhubaneswar. This advanced facility enables real-time monitoring of the network through Supervisory Control and Data Acquisition (SCADA) and an Advanced Distribution Management System (ADMS), ensuring

seamless operation of 33kV feeders, primary substations (PSS) and 11kV feeders. Backup power provisions and dedicated communication channels at the Power System Control Centre (PSCC) further reinforce operational continuity. Speaking on

the summer preparedness, Arvind Singh, CEO, TPCODL, said, "Ensuring reliable power supply during peak summer months is our top priority. With cutting-edge technology, strengthened infrastructure and a well-equipped workforce, TPCODL is fully prepared to meet the growing electricity demand while enhancing service quality and safety for our consumers." With these robust measures in place, TPCODL reaffirms its commitment to delivering uninterrupted, safe and efficient power supply across its operational areas.

Synopsis: TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and Government of Odisha, is prepared to meet the rising electricity demand as temperatures soar in the summer of 2025. With an anticipated peak demand of 2524 MW, TPCODL has undertaken a series of proactive measures to ensure uninterrupted power supply and enhanced reliability. To strengthen its power distribution capabilities, TPCODL has established a Centralised Power Distribution Technology Centre in Bhubaneswar. This advanced facility enables real-time monitoring of the network through Supervisory Control and Data Acquisition (SCADA) and an Advanced Distribution Management System (ADMS), ensuring seamless operation of 33kV feeders, primary substations (PSS) and 11kV feeders. Backup power provisions and dedicated communication channels at the Power System Control Centre (PSCC) further reinforce operational continuity.

As part of its summer preparedness initiative, TPCODL has: Added 152 MVA to the sub-transmission network by upgrading power transformers and substations. Added 181 MVA capacity to the distribution Network by3 augmentation & addition of new Distribution Transformers. . Expanded the network with 55 CKM of sub-transmission lines, 1126 CKM of 11kV lines and 383 CKM of LT network. . Improved voltage stability by augmenting 33kV and 11kV feeders and operationalization of On-Load Tap Changers (OLTCs). In City areas, Hot stand by source has been ensured.

କାଳବୈଶାଖୀ, ବାତ୍ୟା ପାଇଁ ଟିପିସିଓଡିଏଲ୍‌ର ପ୍ରସ୍ତୁତି

ଭୁବନେଶ୍ୱର, ୨୨/୩(ଉପସା): ଗ୍ରୀଷ୍ମଋତୁ ପୂର୍ବରୁ ଟିପିସିଓଡିଏଲ୍ ପକ୍ଷରୁ ବ୍ୟାପକ ପ୍ରସ୍ତୁତି ହୋଇଛି। ଏହି ସମୟରେ କାଳବୈଶାଖୀର ପ୍ରଭାବ ରହୁଥିବାରୁ ନିରବଚ୍ଛିନ୍ନ ବିଜୁଳି ଯୋଗାଣ ସୁନିଶ୍ଚିତ କରିବାକୁ ଯୋଜନା ହୋଇଛି।

ଭୁବନେଶ୍ୱରରେ ଏକ କେନ୍ଦ୍ରୀୟ ବିଦ୍ୟୁତ ବିତରଣ ପ୍ରୟୁକ୍ତି କେନ୍ଦ୍ର ପ୍ରତିଷ୍ଠା କରାଯାଇଛି। ପାଣ୍ଡାର ଗ୍ରୀଷ୍ମଋତୁ ଓ ସର୍ବସ୍ଥେୟନଗୁଡ଼ିକର ସର୍ବ-ଗ୍ରୀଷ୍ମଋତୁ ନେଟୱାର୍କରେ ୧୫୨ ଏମଭିଏ ଓ ବିତରଣ ନେଟୱାର୍କରେ ୧୮୧ ଏମଭିଏ କ୍ଷମତା ଯୋଡ଼ାଯାଇଛି। ସହରାଞ୍ଚଳରେ ୯୮% ସଫଳତା ହାର ସହିତ ୫ ମିନିଟ୍‌ରେ ବିଭ୍ରାଟ କ୍ଷେତ୍ରରେ ପରିବର୍ତ୍ତନ ପାଇଁ ପିଏସ୍‌ଏସ୍‌ରେ ହଟ୍ ଷ୍ଟାଣ୍ଡ ବାଇ ପୋର୍ସ ସୁନିଶ୍ଚିତ କରାଯାଇଛି। ଗ୍ରୀଡ୍ ଫିଡର ଟ୍ରିପ୍‌କୁ ରୋକିବା ପାଇଁ ଶାଫ୍ଟ ଆଧାରିତ ଓଭରଲୋଡ୍

ଟ୍ରିପ୍ କାର୍ଯ୍ୟକାରୀ କରାଯାଇଛି। ଫୁଏଲ୍ କଲ୍ ସେଣ୍ସରରେ ୯୦୦୦ରୁ ଅଧିକ କର୍ମଚାରୀଙ୍କୁ ନିୟୋଜିତ କରାଯାଇଛି। ୧୩ଟି ଭ୍ରାମ୍ୟମାଣ ଡିଷ୍ଟ୍ରିବ୍ୟୁସନ୍ ସର୍ବସ୍ଥେୟନ ପ୍ରସ୍ତୁତ ରଖାଯାଇଛି। ୨୦ଟି ବିଭାଗୀୟ ସ୍ଟୋରରେ ଜରୁରୀକାଳୀନ ସାମଗ୍ରୀ, ୨୦ ଆସ୍କା ଲାଇଟ୍, କଳାବୈଶାଖୀ ବ୍ୟାକ୍ ଅପ୍ ଡେସ୍କ, ୫ଟି ମ୍ୟାନୁଲିୟର ନିୟୋଜିତ କରାଯାଇଛି।

ଟିପିସିଓଡିଏଲ୍ ସିଇଓ ଅରବିନ୍ଦ ସିଂହ କହିଛନ୍ତି ଯେ, “ଗ୍ରୀଷ୍ମ ଋତୁରେ ଭରସାଯୋଗ୍ୟ ବିଜୁଳି ଯୋଗାଣ ନିଶ୍ଚିତ କରିବା ଆମର ସର୍ବୋଚ୍ଚ ପ୍ରାଥମିକତା। ଅତ୍ୟଧୁନିକ ଜ୍ଞାନକୌଶଳ, ଭିଡିଓମି ସହ ଡାଟାଲୋଗ୍‌ସ୍ ପାଇଁ ସେବାର ଗୁଣବତ୍ତା ଏବଂ ନିରାପତ୍ତା ବୃଦ୍ଧି କରିବା ସହିତ ବଡ଼ଥିବା ବିଦ୍ୟୁତ୍ ଚାହିଦାକୁ ପୂରଣ କରିବା ପାଇଁ ଆମେ ସମ୍ପୂର୍ଣ୍ଣ ପ୍ରସ୍ତୁତ ରହିଛୁ।”

Synopsis: TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and Government of Odisha, is prepared to meet the rising electricity demand as temperatures soar in the summer of 2025. With an anticipated peak demand of 2524 MW, TPCODL has undertaken a series of proactive measures to ensure uninterrupted power supply and enhanced reliability. To strengthen its power distribution capabilities, TPCODL has established a Centralised Power Distribution Technology Centre in Bhubaneswar. This advanced facility enables real-time monitoring of the network through Supervisory Control and Data Acquisition (SCADA) and an Advanced Distribution Management System (ADMS), ensuring seamless operation of 33kV feeders, primary substations (PSS) and 11kV feeders. Backup power provisions and dedicated communication channels at the Power System Control Centre (PSCC) further reinforce operational continuity.

As part of its summer preparedness initiative, TPCODL has: Added 152 MVA to the sub-transmission network by upgrading power transformers and substations. Added 181 MVA capacity to the distribution Network by 3 augmentation & addition of new Distribution Transformers. . Expanded the network with 55 CKM of sub-transmission lines, 1126 CKM of 11kV lines and 383 CKM of LT network. . Improved voltage stability by augmenting 33kV and 11kV feeders and operationalization of On-Load Tap Changers (OLTCs). In City areas, Hot stand by source has been ensured.
