Gajanan S. Kale takes charge as CEO TPCODL

PBD BUREAU

BRUHANESWAR, JUNE 2

TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Odisha Government, has appointed Gajanan S. Kale as its new Chief Executive Officer (CEO).

He will also continue to serve as the Chief of Odisha Distribution Business for Tata Power.

A veteran power sector professional with over 34 years of experience, Mr. Kale brings extensive expertise in power distribution and utility management. He holds a Master's

degree in Electrical Engineering from NIT Nagpur and a management qualification from IIM Ahmedabad.

Over the course of his career, Kale has held several key leadership roles across Tata Power's distribution businesses. His

experience spans operations and maintenance, customer service, commercial operations, network engineering, inventory management and corporate social responsibility.

Prior to this appointment, he served as CEO TPNODL, CEO TPDDL, CEO TPADL and CEO TPWODL.

Speaking on his appointment, Kale said, "I am honoured to take on this responsibility. Together with our employees and stakeholders, we will continue to strengthen power distribution services, enhance customer satisfaction and

contribute to Odisha's development journey."

Kale succeeds Arvind Singh, under whose leadership TPCODL made significant strides in improving operational performance, customer service and network reliability.

TPCODL serves a population of approximately 1.36 crore and caters to a consumer base of 32.96 lakh across a distribution network spanning 29,354 square kilometres. Its service area covers the districts of Khurda, Puri, Cuttack, Dhenkanal, Angul, Nayagarh, Jagatsinghpur, Kendrapara, and parts of Jaipur in Odisha.

TPCODL celebrates World Environment Day, launches Tata Sustainability Month 2026

PBD BUREAU

BHUBANESWAR, JUNE 5

TP Central Odisha Distribution Limited (TPCODL) celebrated World Environment Day with enthusiasm and commitment, marking the launch of Tata Sustainability Month 2026 under the theme "Thinking is Good, Doing is Better."

The celebration highlighted TPCODL's continuous efforts towards environmental sustainability and responsible operations.

The program witnessed active participation from employees and leadership members, reinforcing the organization's commitment to building a greener and more sustainable future.

World Environment Day is observed globally on June 5 every year, to inspire collective action towards protecting and restoring the environment.

As part of Tata Sustainability Month, this year's theme emphasizes the importance of converting awareness and intent into

action and encourages employees, consumers and communities to actively participate in sustainability initiatives.

On the occasion, Gajanan S. Kale, CEO TPCODL and Chief of Odisha Distribution Business reaffirmed the organization's commitment towards driving positive environmental change through responsible business practices, energy conservation initiatives and community engagement activities.

Addressing the gathering, Kale emphasized that sustainability is no longer limited to awareness alone, but requires meaningful and consistent action. He encouraged employees to adopt environmentally responsible practices in their personal and professional lives and contribute towards creating a cleaner and more resilient Odisha.

As part of the celebration, employees took the World Environment Day pledge, environmental projects for the financial year and sustainability engagements for the month-long campaign were unveiled.

WORLD ENVIRONMENT DAY

TPCODL launches Tata Sustainability Month

BHUBANESWAR: TP Central Odisha Distribution Limited (TPCODL) celebrated World Environment Day 2026 with enthusiasm and commitment, Friday here. The company also launched Tata Sustainability Month 2026 under the theme "Thinking is Good, Doing is Better." The celebration highlighted

the company's continuous efforts towards environmental sustainability and responsible operations. The programme witnessed active participation from employees and leadership members, reinforcing the organization's commitment to building a greener and more sustainable future. On the occasion, Gajanan S. Kale, CEO, TPCODL and Chief of Odisha Distribution Business, reaffirmed the organization's commitment towards driving positive environmental change through responsible business practices, energy conservation initiatives and community engagement activities. Addressing the gathering, Kale emphasized that sustainability is no longer limited to awareness alone, but requires meaningful and consistent action. He encouraged employees to adopt environmentally responsible practices in their personal and professional lives and contribute towards creating a cleaner and more resilient Odisha. "World Environment Day reminds us that sustainability is not only about awareness, but about taking meaningful and collective action. At TPCODL, we are committed to driving positive environmental change through responsible operations, energy conservation initiatives and active community participation. Through Tata Sustainability Month 2026, we aim to inspire employees, consumers and communities to adopt sustainable practices and contribute towards building a greener, cleaner and more resilient Odisha for future generations," said, Kale. As part of the celebration, employees took the World Environment Day pledge, environmental projects for the financial year and sustainability engagements for the month-long campaign were unveiled. Sapling and seed ball plantation drives were also conducted across different Circle Offices, Division Offices and Section Offices to promote environmental conservation and enhance green cover. The Tata Sustainability Month 2026 programme includes a wide range of activities such as World Environment Day e-quiz, sustainability awareness campaigns in schools, plogging drives, "Best Out of Waste" initiatives, awareness emailers and learning sessions. Competitions including poster making, slogan writing and essay writing for employees and their wards are also being organized to encourage creativity and environmental awareness.

TPCODL celebrates 6 Years of powering progress in central Odisha

PBD BUREAU

BHUBANESWAR, JUNE 11

TP Central Odisha Distribution Limited (TPCODL), a joint venture between Tata Power and the Government of Odisha, celebrated its 6th Anniversary, marking six years of transformative growth, innovation, and service excellence in Central Odisha's power distribution sector.

Serving a population of 1.36 crore across a distribution area of 29,354 sq. km. and a consumer base of 32.96 lakh, TPCODL has emerged as a leading power utility in the country.

The event highlighted the company's commitment to delivering reliable, quality, and customer-centric power supply while building a resilient and future-ready electricity

distribution network.

During the occasion, the leadership reflected on TPCODL's significant progress in strengthening infrastructure, driving digital transformation, enhancing consumer services, and fostering a culture of safety and operational excellence. At the core of its growth has been an unwavering commitment to reliable, safe, and customer-first service delivery.

Recognised among India's leading power distribution utilities, TPCODL has secured an A+ rating in the latest Annual Integrated Rating & Ranking of Power Distribution Utilities by the Ministry of Power, Government of India.

The company has achieved this prestigious distinction for the second consecutive

year, underscoring its commit-

ment to operational excellence, strong corporate governance and financial resilience.

Addressing the gathering, Gajanan S. Kale, CEO, TPCODL, said, "Over the last six years, TPCODL has transformed the power distribution landscape of Central Odisha through innovation, operational excellence, and customer-focused initiatives. This milestone belongs to our employees, consumers, and partners who have been integral to our success. We remain committed to powering progress and building a smarter and more sustainable energy future for the region."

As part of the celebrations, TPCODL unveiled its company magazine, 'Smruti o Anubhuti' and recognised the contributions of employees and field teams whose dedication has been instrumental in the organisation's success. Cultural performances by employees and their family members added vibrancy to the event.

The anniversary celebration reaffirmed TPCODL's vision of driving sustainable growth, empowering communities, and delivering world-class power services across Central Odisha."

Khordha sets State record with nearly 11k rooftop solar installations under PM Surya Ghar scheme

PRD BUREAU

BHUBANESHWAR, JUNE 12

MARKING a significant milestone in Odisha's clean energy journey, Khordha has become the first district in the state to cross 10,000 rooftop solar installations under the PM Surya Ghar: Muft Bijli Yojana.

With 10,754 rooftop solar installations and an installed capacity of nearly 35 MWp, Khordha continues to lead Odisha in rooftop solar adoption, setting a benchmark for renewable energy deployment across the state.

The achievement reflects Odisha's growing commitment to clean energy and sustainable development. The state currently offers one of the most attractive rooftop solar subsidy structures in the country under the PM Surya Ghar: Muft Bijli Yojana for both up to 1 kW (ULA) and above 1 kW (non-ULA) consumer categories.

Eligible consumers can avail combined Central and State Government subsidies of up to ₹1,38,000 for rooftop solar installations, significantly reducing upfront costs and making clean energy adoption increasingly affordable and

accessible for households across both urban and rural areas.

A major contributor to this success has been the "Mo Chhata, Mo Sanchaya" campaign launched by Tata Power-led Odisha DISCOMs.

The campaign has played a pivotal role in creating awareness about the economic and environmental benefits of rooftop solar among households, institutions and communities.

Through extensive outreach activities, the campaign has encouraged consumers to adopt solar energy as a means to reduce electricity expenses while contributing to a greener

and more sustainable future.

Khordha emerged as a frontrunner in the campaign owing to its strong urban and rural participation, proactive local administration, and effective consumer engagement initiatives.

As part of the outreach efforts, Surya Ghar Gram Sabhas are being organized at the Gram Panchayat level to educate citizens about rooftop solar technology, subsidy bene-

fits, installation procedures and long-term savings opportunities.

The DISCOMs are also actively engaging with sarpanches, block-level officers, community leaders and citizens to facilitate consumer onboarding and maximize participation in the scheme. These collaborative efforts have enabled Khordha to become the first district in Odisha to achieve the landmark of 10,000 rooftop solar installations.

Under the PM Surya Ghar: Muft Bijli Yojana, Tata Power-led Odisha DISCOMs have implemented several cus-

tommer-friendly measures to facilitate rooftop solar adoption. These include ensuring the availability of net meters, timely inspections and commissioning, streamlined vendor registration and management and inter-departmental convergence for the installation of government buildings.

Gajanan S. Koley, CEO, TPCODL, said, "Khordha becoming the first district in Odisha to surpass 10,000 rooftop solar installations under the PM Surya Ghar: Muft Bijli Yojana is a proud milestone in the state's clean energy journey."

Odisha's First Solar Didi Training Batch Successfully Completes Training Under PM Surya Ghar: Muft Bijli Yojana

Bhubaneswar, (TNH) TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Government of Odisha, marked the successful completion of the first batch of Solar Helper Training in Odisha under the Solar Didi Initiative of PM Surya Ghar: Muft Bijli Yojana at the Tata Power Skill Development Institute (TPSDI), Cuttack. The Solar Didi Initiative is a joint programme of the Ministry of New and Renewable Energy (MNRE) and the Ministry of Housing & Urban Affairs (MoHUA), Gov-

ernment of India, implemented under the Deendayal Antyodaya Yojana - National Urban Livelihoods Mission (DAY-NULM). A total of 29 women representatives from Self Help Groups (SHGs) under DAY-NULM, identified by Cuttack Municipal Corporation (CMC), successfully completed the training programme. The participants were equipped with technical knowledge on rooftop solar systems, including installation processes, operation and maintenance, consumer awareness and promotion of solar energy adoption.

The initiative was facilitated by the City Accelerator Program (CAP) Team, supported by MNRE, with Tata Power Skill Development Institute (TPSDI) serving as the training partner for the Solar Didi programme.

The successful completion of the first batch marks an important mile-

stone in empowering women as Solar Didis and strengthening grassroots participation in the implementation of PM Surya Ghar: Muft Bijli Yojana. In collaboration with TPCODL, the trained Solar Didis will be engaged in promoting the Utility-Led Aggregation (ULA) model and the PM Surya Ghar scheme

across Cuttack city. They will support citizen outreach, beneficiary mobilisation and facilitate rooftop solar adoption at the community level. Speaking on the occasion, Gajanan S. Kale, CEO, TPCODL, said, "The successful completion of Odisha's first Solar Didi training batch is a significant step towards empowering women and accelerating the adoption of rooftop solar energy. By equipping women with technical knowledge and community engagement skills, we are creating local champions who can drive awareness and fa-

cilitate the benefits of PM Surya Ghar: Muft Bijli Yojana at the grassroots level. TPCODL is proud to collaborate in this transformative initiative that combines sustainable livelihoods with clean energy adoption." The initiative is expected to create sustainable livelihood opportunities for women while accelerating the transition towards clean and renewable energy in urban areas. It reflects a collective commitment to women empowerment, skill development, and the promotion of sustainable energy solutions for a greener future.

TPCODL Urges Consumers to Follow Electrical Safety Measures During Monsoon

Bhubaneswar, (TNB): As the monsoon season brings heavy rains, thunderstorms and strong winds, TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Government of Odisha, urges all consumers to prioritize electrical safety and remain vigilant around electrical installations. Consumers are advised to avoid waterlogged areas near electric poles, transformers, feeder pillars and other electrical equipment. In case of fallen power lines, snapped conductors, or damaged electrical infrastructure, maintain a safe distance and immediately report the matter to TPCODL. Do not attempt to touch or move any electrical equipment

or cables under any circumstances. Households should ensure proper earthing, maintain safe internal wiring and un-

plug non-essential electrical appliances during lightning and severe storms. Consumers are also encouraged to promptly report any power-related emergencies through TPCODL's 24x7 toll-free helpline 1912.

Speaking on the occasion, Gajanan S. Kale, CEO, TPCODL, said: "At TPCODL, consumer safety remains our highest priority, especially during the monsoon season when electrical hazards can increase due to

heavy rains and thunderstorms. While our teams are fully prepared to ensure reliable power supply and respond swiftly to any disruptions, we urge consumers to exercise caution around electrical installations, avoid waterlogged areas near power infrastructure and immediately report any damaged lines or equipment. By following basic electrical safety practices, we can work together to ensure a safe and incident-free monsoon for all." "Your safety is our priority. Stay alert, stay safe and help us ensure a safe monsoon for everyone. Together, let's prevent electrical accidents and ensure uninterrupted power supply across Central Odisha," appealed TPCODL.
