‘Nua Arambha’ initiative helps women restart careers in Tata Power DISCOMs

EXPRESS NEWS SERVICE

@Bhubaneswar

STRENGTHENING their commitment to women empowerment, Tata Power-led distribution companies (DISCOMs) have come up with the ‘Nua Arambha - New Beginning’ initiative, aimed at supporting women professionals seeking to restart their careers after a break.

The initiative aligns with the International Women's Day 2026 theme ‘Give to Gain’, which emphasises that when society creates equal opportunities for women, the entire world benefits. As part of the initiative, seven women professionals have been onboarded across different roles in the four DISCOMs.

Speaking on the occasion, chief of Odisha distribution business, Gajanan Kale noted that diversity and inclusion were key drivers of organisational growth and innovation. “Initiatives like ‘Nua Arambha’ provide women professionals the opportunity and confidence to restart their careers and contribute meaningfully to the or-

Women professional of Tata Power at the Nua Arambha initiative on the occasion of International Women's Day

ganisation and society,” he said.

Director on the Boards of TP-NODL and TPWODL and professor at the Faculty of Management Studies, Delhi, Monica Singhanian appreciated the resilience and determination of the women professionals who have chosen to return to the workforce and commended the four DISCOMs of Tata Power for fostering an environment that supports women's learning, leadership and professional growth.

Among others, TPCODL CEO Arvind Singh and chief, Business Human Resources (BHR) Shyam Sunder Choudhury along with other senior leaders attended the event.

Odisha DISCOMs mark IWD with ‘Nua Arambha’ career restart initiative

PBD BUREAU

BHUBANESHWAR, MAR 8

REINFORCING its commitment to diversity, inclusion and women empowerment, Tata Power-led Odisha DISCOMs celebrated the ‘Nua Arambha - New Beginning’ initiative on the occasion of International Women's Day to support women looking to restart their professional journey after a career break.

Studies, Delhi, and Director on the Boards of TP-NODL and TPWODL; Gajanan Kale, Chief - Odisha Distribution Business; Arvind Singh, CEO, TPCODL; and Shyam Sunder Choudhury, Chief BHR, along with members of the senior leadership team of the Odisha DISCOMs.

Speaking on the occasion, Kale said diversity and inclusion are key drivers of organisational growth and innovation.

Now in its second season, the initiative aims to create opportunities for women professionals to re-enter the workforce and contribute to the power distribution sector in Odisha while balancing personal responsibilities.

As part of the programme, seven women professionals have been onboarded across different roles in the four Odisha DISCOMs, marking a step towards strengthening gender diversity within the organisation.

The event also served as a platform to acknowledge the resilience and commitment of women professionals returning to the workforce and to encourage more women to take steps towards restarting their careers.

The programme was attended by Dr Monica Singhanian, Professor, Faculty of Management

“Through initiatives like ‘Nua Arambha’, we aim to provide women professionals with the opportunity and confidence to restart their careers and contribute meaningfully to the organisation and society,” he said.

Dr Singhanian appreciated the resilience and determination of women professionals who chose to re-enter the workforce and commended the Odisha DISCOMs' efforts to build an environment that supports women's professional growth, learning and leadership.

The ‘Nua Arambha’ initiative also aligns with the theme of International Women's Day 2026, ‘Give to Gain’, highlighting the importance of creating opportunities and support systems that enable women to thrive in the workplace.

‘PM Surya Ghar scheme can transform rooftop solar landscape in Odisha’: ACS

PBD BUREAU

BHUBANESWAR, MAR 8

THE PM Surya Ghar: Muft Bijli Yojana has the potential to transform the rooftop solar landscape in Odisha, Additional Chief Secretary Vishal Kumar Dev said while chairing a high-level review meeting on the scheme.

The meeting, held at the TPCODL Management Development Centre, brought together senior officials from the Energy Department, DISCOMs, banks and empanelled vendors to assess the progress of the scheme and discuss measures to accelerate rooftop solar installations across the state.

Discussions focused on addressing operational bottlenecks, streamlining loan disbursement processes and strengthening coordination among stakeholders to facilitate faster implementation of rooftop solar projects.

Banks, vendors and DISCOMs must work in close coordination to ensure timely loan disbursement and smooth implementation so that more households can benefit from clean and affordable energy,” Dev said.

Chief Odisha Distribution Business, Gajanan Kale, highlighted the importance of collaboration among financial institutions, vendors and DISCOMs to achieve the targets under the scheme.

“The success of this initiative depends on seamless collaboration between financial institu-

tions, vendors and DISCOMs. By addressing operational challenges together, we can significantly scale up rooftop solar adoption and contribute to Odisha’s sustainable energy future,” he said.

The interactive session enabled bankers and vendors to share their experiences, discuss operational challenges and explore solutions to accelerate installations and improve consumer access to financing under the scheme.

The meeting was also attended by Sagarika Hota, Director, Institutional Finance, Finance Department; Sai Dutta Biplab Keshari Pradhan, Additional Secretary, Energy Department; Lingaraj Nayak, SLBC Odisha In-charge; Arvind Singh, Chief Executive Officer, TPCODL; and Joginath Pradhan, Chief Project Manager, REC Bhubaneswar, along with senior officials from DISCOMs, banks and empanelled vendors.

TPCODL to hold Lok Adalat on March 14 for case resolution

PBD BUREAU
SHUBANESWAR, MAR 10

TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Government of Odisha, will conduct the 1st National Lok Adalat for 2026 and Settlement Camp on March 14 across all its operational areas to facilitate the quick resolution of cases related to unauthorised electricity usage and electricity theft.

The initiative is being organised under the framework of the National Legal Services Authority (NALSA) to expedite dispute settlement.

The Lok Adalat will run from 9:00 AM to 5:00 PM, providing consumers with a full day of on-the-spot assistance to settle pending enforcement matters. As the first Lok Adalat of 2026, TPCODL has urged consumers to utilise the platform to resolve outstanding cases, avoid future legal or financial complications and regularise their electricity usage through a transparent and time-bound process.

To ensure smooth facilitation, dedicated teams comprising enforcement officers, legal professionals, and trained support staff will be deployed

(A Joint Venture of Tata Power and Government of Odisha)

at every
Division, Sub-
Division and
Section office.

These teams will guide consumers on eligibility, documentation and settlement pro-

TPCODL has made district-wise arrangements, eligibility details and step-by-step settlement guidance available at all its Division, Sub-Division and Section Offices. Consumers may also contact their nearest Customer Care Centre & Fuse Call Centres (FCC) for clarifications ahead of the event.

Conducted in coordination with legal authorities, the National Lok Adalat and Settlement Camp is expected to help reduce the consumer grievances through settlement of long pending enforcement cases and enhance service delivery by encouraging wider consumer participation.

IPCODI has appealed to all consumers with pending enforcement cases to attend the Lok Adalat on Saturday and make use of the single-window, hassle-free settlement process.

(ଟାଟା ପାଣ୍ଡାଲ ଓ ଓଡ଼ିଆ ସରକାରଙ୍କ ଏକ ଯୌଥ ଉଦ୍ୟୋଗ)

TP Central Odisha Distribution Limited (TPCODL) has been honoured with the "Best Practices in Industrial Relations (IR)" award at the 38th State-Level QC Circle Convention 2025, organised by Confederation of Indian Industry (CII) Odisha.

The award was presented by Industries Minister Sampad Chandra Swain and Chief Secretary Anu Garg in the presence of CII Odisha State Council Chairman Anil Kumar Singh and Additional Chief Secretary Hemant Sharma.

Speaking on the achievement, Arvind Singh CEO TPCODL said: "This recognition from CII

is a proud moment for all of us at TPCODL. Strong and progressive industrial relations form the backbone of a resilient organisation. Our HR team and employees have consistently worked together to build a culture of trust, collaboration and continuous improvement."

The recognition highlights TPCODL's continued commitment to creating a positive workplace culture, encouraging employee participation and implementing best-in-class industrial relations practices aligned with the company's vision of operational excellence and sustainable growth.

TPCODL Receives Prestigious CII Odisha Award for Best Practices in Industrial Relations

Bhubaneswar, 13 March 2025

TP Central Odisha Distribution Limited (TPCODL) has been honoured with the "Best Practices in Industrial Relations (IR)" award at the 38th State-Level QC Circle Convention 2025, organised by Confederation of Indian Industry (CII) Odisha. The award ceremony was held in Bhubaneswar. The award was presented by Sampad Chandra Swain, Hon'ble Minister of Industries, Technical Education & Skill Development, Government of Odisha and Anu Garg, Chief Secretary, Government of Odisha. The event was also graced by Anil Kumar Singh,

Chairman of CII Odisha State Council and Hemant Sharma, Additional Chief Secretary, Government of Odisha. Speaking on the achievement, Mr Arvind Singh, CEO, TPCODL said: "This recognition from CII is a proud moment for all of us at TPCODL.

Strong and progressive industrial relations form the backbone of a resilient organisation. Our HR team and employees have consistently worked together to build a culture of trust, collaboration and continuous improvement. The recognition highlights

TPCODL's continued commitment to creating a positive workplace culture, encouraging employee participation and implementing best-in-class industrial relations practices aligned with the company's vision of operational excellence and sustainable growth.

TPCODL strengthens power infra in Cuttack, ensures reliable supply to key institutions

PBD BUREAU

BHUBANESWAR, MARCH 18

TP Central Odisha Distribution Limited (TPCODL) has successfully completed the EHT tower shifting work in Cuttack, significantly strengthening the city's power distribution infrastructure.

As part of this project, two numbers of 33 kV 4-way Ring Main Units (RMUs) along with 10.5 kilometres of underground cable have been commissioned to enhance the reliability and resilience of the power network.

The project has been executed keeping in view the growing demand for reliable electricity in key parts of the city and to

support important infrastructure development.

The upgraded system will ensure uninterrupted and stable power supply to major institutions including SCB Medical College and Hospital, Ravenshaw University, National Law University Odisha and Cuttack Railway Station. Reliable electricity supply to these institutions is crucial as they cater to thousands of students, patients, professionals and commuters every day.

The infrastructure upgrade will directly benefit around 7,000 electricity consumers residing in the areas of Tulasipur, Jobra, College Square and Ranihat. With the commissioning of the new RMUs and underground cable network, consumers in these localities will experience improved reliability of power supply and better service continuity.

TPCODL continues to focus on strengthening its network through modern infrastructure and strategic projects to meet the increasing electricity demand of urban centres.

The company remains committed to ensuring safe, reliable and quality power supply to its consumers while supporting the overall development of the region.

TPCODL strengthens power infra with Inauguration of electrical sub-store at Kendrapara

PBO BUREAU

BHUBANESWAR, MARCH 24

TP Central Odisha Distribution Limited (TPCODL) marked a significant milestone with the inauguration of its new Electrical Sub-Store at Kendrapara, reinforcing its commitment to reliable and efficient power supply across its operational areas.

The facility was inaugurated by Dushyant Kumar Tyagi, Chief Operating Officer (COO), in the presence of senior officials and employees. The ceremony

began with the ribbon-cutting, followed by the unveiling of the inauguration plaque, formally dedicating the sub-store to service.

The Kendrapara Electrical Sub-Store is strategically established to strengthen the power

distribution network in the Paradeep Circle. The facility is expected to play a crucial role during emergency situations such as cyclones, storms and Kalabaisakhi by ensuring faster restoration of power supply.

With the capacity to mobilize and replace 50-60 transformers in a short time, the sub-store will significantly reduce outage duration and improve response time during natural calamities.

This development is set to enhance operational efficiency, streamline material management and enable quicker resolution of electricity-related issues

for consumers in the region. Thousands of consumers are expected to benefit from improved service reliability and reduced downtime.

The initiative reflects TPCODL's continued focus on infrastructure strengthening and its commitment to delivering uninterrupted and quality power supply to its consumers.

The successful commissioning of the Kendrapara sub-store stands as a testament to the organization's dedication, teamwork and vision of operational excellence and customer-centric service delivery.

TPCODL Strengthens Power Infrastructure with Inauguration of Electrical Sub-Store at Kendrapara

BHUBANESWAR, (Correspondent) TP Central Odisha Distribution Limited (TPCODL) marked a significant milestone with the inauguration of its new Electrical Sub-Store at Kendrapara, reinforcing its commitment to reliable and efficient power supply across its operational areas.

The facility was inaugurated by Shri Dushyant Kumar Tyagi, Chief Operating Officer (COO), in the presence of senior officials and employees. The ceremony began with the ribbon-cutting, followed by the unveiling of the inauguration plaque, formally dedicating the sub-store to service. The Kendrapara Electrical

Sub-Store is strategically established to strengthen the power distribution network in the Paradeep Circle. The facility is expected to play a crucial role during emergency situations such as cyclones, storms and Kalabaisakhi by ensuring faster restoration of power supply. With the

capacity to mobilize and replace 50-60 transformers in a short time, the sub-store will significantly reduce outage duration and improve response time during natural calamities.

This development is set to enhance operational efficiency, streamline material management and

enable quicker resolution of electricity-related issues for consumers in the region. Thousands of consumers are expected to benefit from improved service reliability and reduced downtime. The initiative reflects TPCODL's continued focus on infrastructure strengthening and its commitment to delivering uninterrupted and quality power supply to its consumers. The successful commissioning of the Kendrapara sub-store stands as a testament to the organization's dedication, teamwork and vision of operational excellence and customer-centric service delivery.

TPCODL announces special payment resolution camp

STATESMAN NEWS SERVICE

Bhubaneswar, 25 March:

TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Government of Odisha, announced that it will hold a Consumer Grievance Redressal Camp on 30 and 31 March across its operational areas, offering consumers a convenient platform to resolve long-pending electricity-related issues.

The initiative aims to facilitate swift and amicable settlement of cases related to unauthorised electricity

usage and power theft through a transparent, single-window mechanism.

Notably, during the Lok Adalat held on March 14, 2026, TPCODL successfully resolved over 6,600 cases on the spot. Building on this success, TPCODL has urged consumers with pending enforcement cases to participate in the upcoming Grievance Redressal camp.

Consumers can obtain details regarding eligibility, required documents and settlement procedures at all TPCODL offices and customer care centres said a release issued by the discom here on Wednesday.

TPCODL Announces Special Camp for Payment Resolution on 30th and 31st March

BHUBANESWAR, (Correspondent): TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Government of Odisha, will organise a Consumer Grievance Redressal Camp on March 30 and 31, 2026, across its operational areas, offering consumers a convenient platform to resolve long-pending electricity-related issues.

The initiative aims to facilitate swift and amicable settlement of cases related to unauthorised electricity usage and power theft through a transparent, single-window mechanism.

Notably, during the Lok Adalat held on March 14, 2026, TPCODL successfully resolved over 6,600 cases on the spot, enabling consumers to settle enforcement-related matters through a simplified and hassle-free process, underscoring the effectiveness of the platform in addressing grievances at scale.

Building on this success, TPCODL has urged consumers with pending enforcement cases to participate in the upcoming Grievance Redressal camp and take advantage of on-the-spot settlements, helping them avoid legal complications

(A Joint Venture of Tata Power and Government of Odisha)

while regularising their electricity usage.

The camp will be held from 9:00 AM to 5:00 PM at all Division, Sub-Division and Section Offices, with dedicated teams of enforcement officials, legal experts and support staff assisting consumers throughout the process.

Consumers can obtain details regarding eligibility,

required documents and settlement procedures at all TPCODL offices and customer care centres.

TPCODL has appealed to all consumers with pending cases to attend the Consumer Grievance Redressal Camp on March 30 and 31, 2026 and make use of the hassle-free, single-window settlement process.

TPCODL becomes first power utility in India to adopt DigiPIN

PSO BUREAU

BHUBANESHWAR, MARCH 30

IN a significant step towards digital innovation, TP Central Odisha Distribution Limited (TPCODL) has become the first power utility in the country to adopt DigiPIN, a next-generation digital addressing system.

DigiPIN, developed by

the Department of Posts in collaboration with the Indian Space Research Organisation (ISRO) and IIT Hyderabad, replaces conventional latitude-longitude coordinates with a standardised 10-character alphanumeric code for precise location identification.

The company has integrated DigiPIN into its enterprise Geographic Information System (GIS)

for asset address coding, aimed at improving network visibility, streamlining field operations and

enabling faster response during maintenance and outage management.

The deployment is

expected to enhance operational efficiency by enabling accurate asset identification and navigation for field teams, including in areas with limited connectivity. It is also expected to improve service delivery by allowing consumers to share precise location details through government platforms.

TPCODL said the integration covers its operational area of 29,354 sq km,

with over 93,000 transformers, more than 1,500 RMUs and around 19 lakh poles digitally mapped using DigiPIN.

Commenting on the development, CEO Arvind Singh said the adoption of DigiPIN would strengthen the company's digital systems and support data-driven decision-making to improve service reliability and consumer experience.

TPCODL Becomes First Utility in India to Adopt DigiPIN, Advancing India's Digital Public Infrastructure

Bhubaneswar, (ENS): TP Central Odisha Distribution Limited (TPCODL), a joint venture of Tata Power and the Government of Odisha, has become the first power utility in India to adopt DigiPIN, the country's next-generation digital addressing system, marking a significant milestone in the evolution of Digital Public Infrastructure (DPI) in the power distribution sector.

Developed by the Department of Posts in collaboration with the Indian Space Research Organisation (ISRO) and IIT Hyderabad, DigiPIN replaces complex latitude-longitude coordinates with a simple, standardised 10-character

alphanumeric code. This innovation enables precise, accessible and interoperable location identification, even in areas with limited connectivity and is poised to play a transformative role in governance and service delivery.

Building on its strong digital foundation, anchored by Aadhaar-based verification and seamless UPI payment integration, TPCODL has now embedded DigiPIN into its enterprise Geographic Information System (GIS) for asset address coding. This integration will significantly improve network visibility, streamline field operations and enable faster response

times during maintenance and outage management.

Commenting on the achievement, Arvind Singh, CEO, TPCODL, said: "Digital Public Infrastructure is a cornerstone of modern governance, enabling inclusive and efficient access to essential services. At TPCODL, we are committed to supporting the Government of India's vision of a digitally empowered ecosystem. The adoption of DigiPIN marks our next strategic leap, strengthening our digital backbone, aligning with the national addressing grid and enabling data-driven decision-making to enhance reliability and consumer experience."
